

To whom it may concern,

I am Operations Manager of Multi-Res Builders. My role in the business includes liaising with sub-contractors daily to ensure mainly project budget and program is being met. Above this is quality of work and OH&S to be maintained onsite.

Power Solutions Tas make my role easy in all of these aspects. Kyle the managing director has built a very successful business along with his staff in which he has trained. The whole team go above and beyond to make our projects work and are a pleasure to have onsite.

I look forward to the continued partnership in having Kyle and the Power Solutions Tas team helping to deliver our projects.

If any further information is required, please do not hesitate to contact me on the details below as I am happy to assist.

Many Thanks,

Tom Barratt  
Operations Manager
